YOUNG LEADERS

And Finally Rouse Republicans to Action.

Special Correspondence of The Eagle. Washington, May 10 .- The maligners of the soldiers of the United States are havhad things their own way. The republican leaders were willing to let the Philippine government bill go through withontent to let the democrats make their ttacks, and then would pass the bill. But when the vituperative and vindicive minority, led by its self-constituted eaders, began to offer insult and everything but treasonable utterances with respect to the army of the United States, the republican leaders changed their tactics. So, from new until the vote shall be taken on the bill, it is likely that the democratic offenders of insuit and investive will be roughly handled. In fact, they already squirm.

There was a moral as well as a political reason for the change of front by the republican leaders. The republican party has been defending and caring for the army and the honor of the government since the inception of the war with Spain. It will continue to do so. Another thing, the attacks of the democratic faultfinders and masters of invectives were beginning to hurr politically. Throughout the country the unwarranted assaults of the minority, day after day, and the continued slience of the majority, were having their effect on the public. So, for the sake of the congressional campaign of this fall, the forerunner of a presidential campaign. the attacks had to be met and dispelled, and the maligners and traducers of the army and the administration met in their own field.

There is one noticeable thing about the ninority. It is not the older, conservative, abler democratic leaders who are making all this disturbance and uttering this treasonable talk in the senate. It is not Cockrell, Jones of Arkansas, Bacon of Georgia; not these but a newer coterie of leaders. There is Carmack of Tennes-see. Rawlins of Utah, Balley of Texas, in the forefront of battle. It is they, with their impetuousness; their high-handed charges; their bitterness, that comprise he new managers of the minority course And allied with these three are Teller of colorado and his new colleague, Patter-Teller, worn out, old, disappointed, ceble and sour, lifts his voice shrilly and earlily at everything that is tried to be one by administration senators. His colmaye, Patterson, younger, but none the less acrimonious, joins him, and, with Carmack, Rawlins and Bailey, these five are responsible for the present-day demoratic attitude on the Philippine question. But the Philippins bill will be passed. after the republican lenders—Lodge, Spooner, Platt of Connecticut—have fully answered the foul charges and the desperate assaults upon army and govern-

The president has appounced that it is of passing the Philippin erament bill, and the bill previding reciprocity with Cuba, clse a special sessionogress may take its choice.

This settles it. The Philippine bill will ty with Cuba. These things would likely statement makes the result earlier. For when the democrats in the senate and the republican obstructionists who have joined them on the reciprocity measure begins to realize that the result.

It is the same course pursued by President Mckinley a little more than a year. While the Calahoma judgeship contest Fox. Alrica ago, There were two amendments promining the relations between Cuba and the United States. Obstruction precalled number was beginn.

I suffered natold misery for a period of over five years with a case of chronic dyspensia. I would rise in the morning feeling draggy, miserable and unfit for work. For weeks I would be unable to eat one good meal. After eating I would swell and the oppression would almost drive me crazy. At times I would be troubled with spells of dizziness. Constant worriment reduced my weight until I was a shadow of my former self. I have been taking Ripans Tabules now for two months and am almost cured. My old symptons have disappeared. I have gained in weight over twelve pounds.
